

1 Inbound travellers from overseas and Taiwan via Hong Kong International Airport

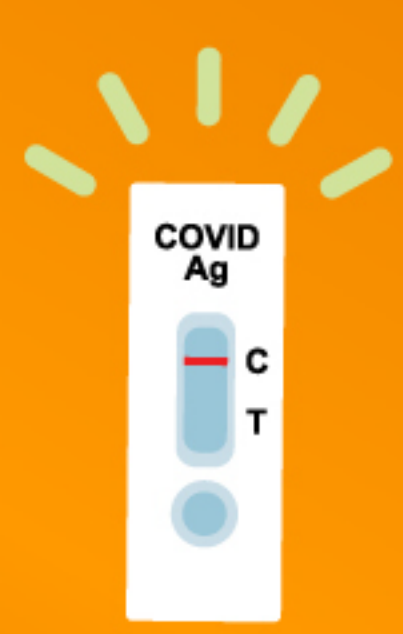

“

0+3

New Arrangements

Starting from 26 September

2 Before departure

A negative pre-departure rapid antigen test within 24 hours

Be fully vaccinated (does not apply to Hong Kong residents)

#For details, please see the “List of COVID-19 Vaccines Recognised for Specified Purposes”

A Health & Quarantine Information Declaration

3 After arrival

A “Test and go” arrangement (comprising a PCR test) at the airport

“Amber code” will be given after undergoing PCR test at the airport. Visitors are not required to wait for the result and can return home or any hotel of his/her own choice. No designated transport is required.

3 nights of medical surveillance

Home medical surveillance starts when a negative PCR result is obtained. During the period, they can go out, but they cannot enter premises subject to active checking of the Vaccine Pass, such as restaurants and bars.

4 Timeline for “0+3” arrangements

The day of arriving Hong Kong will be counted as day 0

Nucleic acid test: Day 0 (airport), 2, 4, 6

Day	0	1	2	3	4	5	6	7
	PCR RAT	RAT	PCR RAT	RAT	PCR RAT	RAT	PCR RAT	RAT

	Medical surveillance		PCR Nucleic Acid Test
	Self surveillance		RAT Rapid Antigen Test
